EXPERIENCE

Python Developer

Exposy Data Lab

May 2022 – June 2022 Mumbai

- Diabetes Patients Prediction : This Project is based on the data science basically in this project i predict that which person suffering to diabetes or not. I use data set from kaggle after that i clean the data set . Using the python idle Jupyter notebook i reload the data set. Than applied some algorithm. After that through the flask i make Fast Api for predicting the diabetes patients.

Intern

Exposys Data Lab

May 2022 – June 2022 Mumbai

- I worked as a python developer, I maked fast api for predicting the diabetes patients.
- Python,Flask,Machine Learning Algorithms,Html,CSS,Bootstrap

PROFESSIONAL PROJECTS

- Campus Placement Prediction : The data science project I predicted the students got placed on campus. Based on students marks and specialization.
- Plant Disease Classifier : It can be done by using machine learning algorithms which include steps like dataset creation,load pictures, pre-preparing, segmentation, feature extraction, training classifier, and classification.
- E-commerce Website: Through an e-commerce website, a business can process orders, accept payments, manage shipping and logistics, and provide customer service.

SKILLS

Python SQL .Net
PHP JAVA bignner Django
Flask Numpy Pandas

HTML CSS Bootstrap

OBJECTIVE

"Seeking a challenging position in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings ."

LANGUAGES

English
Hindi

EDUCATION

Bachelors in Computer Science

Mumbai University

May 2020 – July 2023

MSumbai

CERTIFICATES

- Python
- SQL
- PHP
- DataScience
- .Net
